

Tree of light

Upper Chart shows only the right side of the shawl, left side is knitted symmetrically by mirroring stitches at the midline.

Start by casting on seven (after finishing the shawl stitches 1 and 2 are sewn together with stitches 6 and 7).

Knit row 1 of the chart.

Row 2 and all wrongsides are : k2, p to last stitch before center k1, p1 (=center), k1, purl to the last 2 stitches, k2

After row 99 start again with row 73, repeat as long as you want. My tree of light consists of 11 leaf repeats (for comparison the chart depicts 6 repeats and the beginning of the seventh).

I suggest to use an odd number of leaves, because otherwise you have to adapt the edging chart.

- no stitch
- x border (garter stitch)
- c center stitch (knit)
- p purl
- ^ s2kpsso = slip2together, knit1, pass slipped over
- / k2tog
- \ ssk
- o.o yarn overs, red ones will form the yarn over lines around the leaves which generate the stripes ,

Additional information: Please note that the yos next to the midline are on the left side of the shawl made between a purl and a knit stitch.

To get them exactly the same size as on the right side of the shawl you have to wrap the yarn from back to front (instead of front to back) or do a double yo.

Edging (for odd-numbered repeats!)

row 15 of edging
row 13 of edging
row 11 of edging
row 9 of edging
row 7 of edging
row 5 of edging
row 3 of edging
row 1 of edging

These rows are only shown for better overview

- bind off loosely

Have fun knitting this shawl. If you find any mistakes in the chart please contact me so that I can correct them.
